Obtain License

Select one of the following options

○ Start Now! 30 Day Trial (No Bitstream)

○ Get Free SDK, Vivado WebPACK or Vivado/HLS Evaluation licenses

○ Get Free PetaLinux, ISE WebPACK or IP Licenses

● Get My Full or Purchased License

[Connect Now]   [Save Link As...]

Description of the above selected option

Get all full or purchased licenses and start using the Xilinx tools. You will be taken to the Xilinx website where, if you have full or purchased licenses, you will see an account drop-down menu. In the appropriate license account, you can generate a license for all Xilinx software and IP you have purchased.

If your machine is not currently connected to the internet, use the 'Save Link As...' button to save the license request URL to a HTML file. You can then use the URL in the HTML file to access the licensing site at a later time or on a machine that is connected to the internet.

After the license is generated, Vivado License Manager will automatically try to download and install it for you. However, if your license is a certificate-based, please cancel out and use the license file sent to your e-mail. Once you have saved this file to your machine, click on the Load License selection to copy your .lic file to a default location.
